Lenovo Tab One 8.7	Budget handheld tablet option	About EGP 4,999	Jumia Egypt Lenovo tablets (https://www.jumia.com.eg/lenovo-tablets)

Suggested Hardware Bundles

Small Cafe Bundle

- 1 cashier station
- 1 receipt printer
- 1 cash drawer
- 1 router

- 1 UPS
- 1 or 2 waiter tablets
- 1 kitchen display tablet

Estimated greenfield hardware spend: about EGP 24,000 to 40,000 depending on printer and tablet choices.

Mid-Size Restaurant Bundle

- 2 cashier stations
- 2 receipt printers
- 2 cash drawers
- 1 router plus backup internet option
- 2 UPS units
- 3 to 5 waiter tablets
- 1 or 2 kitchen displays

Estimated greenfield hardware spend: about EGP 55,000 to 110,000 depending on redundancy and tablet tier.

Practical Recommendation

Do not force every branch onto expensive all-in-one POS terminals on day one. In Egypt, a pragmatic rollout is usually better: stable Android tablets for waiter and kitchen, one dependable receipt printer, one cash drawer, good Wi-Fi, and UPS coverage for the cashier station and router.
